FOREWORD MESSAGE

**FROM CHIEF EXECUTIVE
OF CONSTRUCTION
INDUSTRY DEVELOPMENT
BOARD MALAYSIA (CIDB)**

It gives me great pleasure and honour to present the Directory of Malaysian Construction Related Exporters; Goods and Services, which is an important initiative undertaken by the Construction Industry Development Board Malaysia (CIDB), under the auspices of the Ministry of Works.

The Directory, which is the very first document of its kind, was developed to bridge the gap between local and international construction players and seeks to match-make Malaysian construction related exporters; goods and services provider with potential developers and investors locally and from abroad.

To achieve this, the Directory contains comprehensive and useful point of reference that depicts the full value chain of local construction goods and service providers and showcases their respective capabilities, achievements and track-record. The Directory is expected to serve as a “one-stop reference” for Malaysian construction service providers in relation to the construction sector value chain which comprises of Developers, consultants, contractors and manufacturers.

It is envisioned that, through the Directory, we will be able to showcase the strength and experience of our local construction goods and service providers and subsequently increase the local and global demand for their expertise. Additionally, we are creating opportunities for our local players to contribute towards the growth of the local construction industry as well as foray internationally.

Furthermore, with the ongoing mega infrastructure projects in the country, the Directory will provide avenues for our local industry players to be involved, be it directly or indirectly. This will also enhance the use of local resources which will in turn contribute toward the nation’s overall economic growth and prosperity while at the same time showcasing the strength of the Malaysian construction services sector.

Strategically, with the Construction Industry Transformation Programme 2016-2020 in active implementation, the Directory will certainly play a strong role in supporting the aspirations of the Internationalisation strategic thrust, which seeks to propel Malaysian champions to lead the charge locally and globally.

I call upon all Malaysian construction industry players to give their full cooperation to update us with their latest project information in order to ensure the Directory contain accurate and up-to-date information.

I wish to extend my sincere appreciation to organisations who have worked hand-in-hand with CIDB in making this publication a success. To MATRADE, the Board of Architects Malaysia (LAM), the Board of Engineers Malaysia (BEM), the Board of Quantity Surveyors Malaysia (BQSM), various Professional Associations/Institutions, syabas and thank you!

“BUILD PERFECT”

DATO’ IR AHMAD ‘ASRI HAMID

Chief Executive

Construction Industry Development Board Malaysia

certification:**

Pattern Pending

**Building & Construction
Materials & Hardware:**

Tools & Other Hardware, Floor &
Wall Tiles, Tile leveling System

**Description of the material/
product:**

My -TiLS is almost the same as some system that you see in the market but unique with some added features. My-TiLS is modular in design. It consist of 3 parts installation system engineered to level, align, space, and hold large body tile. MY-TiLS will hold the tile level with the adjoining tile to prevent lippage while the mortar is curing as shrinkage might occur.

100% design and made in Malaysia. Together they are the ultimate tile leveling system in the world.

All 3 are sold as a set and as individuals.

The wedge and the holder is a reusable part. You don't have to buy if you have sufficient amount or its not damage.

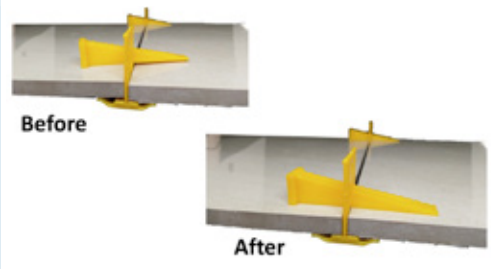

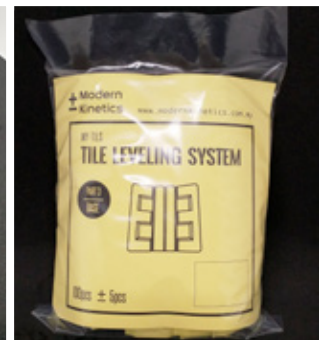

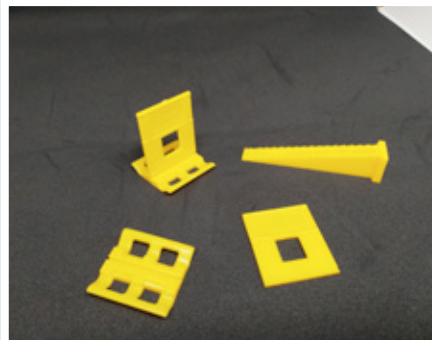

NOTABLE PROJECTS

Country : Brunei

Year Awarded : 2017

Types of Construction Materials : Tile leveling System

The base is one time use. You will have to be purchased where and when required as it is buried in the tile.

MY-TiLS is suitable for tiles from 7mm to 16mm thick. Now architects, IDs, developers and may other can have the option to introduce large format tiles without worrying on workmanship.

■ PPU Donggongan 33/11kV Sabah Reinforcement of Electrical Distribution System

State : Sabah

Year Awarded : 2018

Types of Construction Materials : Cables

■ TNB 258/2015 Lumut Extension

State : Perak

Year Awarded : 2017

Types of Construction Materials : Cables

MANUFACTURER

**VECTOR ATLANTIC
SDN BHD**

Address:

Lot 10700, Jalan Permata 1,
Arab Malaysian Industrial Park,
71800 Nilai, Negeri Sembilan

Website:

www.vectoratlantic.com
www.vectoratlantic.net

Status of Business:

Private Limited (Sendirian Berhad)

Contact Person:

Mr. Gan Tiam Teng
Business Development Director

Email : gan@vectoratlantic.com

Tel : +606-799 8386

Fax : +606-799 8718

Year of Establishment:

15 January 1994

**Local and/or international
recognized accreditation/
certification:**

ISO 9001:2015, ISO 14001:2015

**Building & Construction
Materials & Hardware:**

Bolts, Nuts, Hinges & Nails,
Fabricated Items, Aluminium
Formwork Panel System

**Description of the material/
product:**

The Aluminium Formwork System was developed in the late 1970's as a System for Low-Cost Housing Construction. They were used to Cast Concrete in Place, with Loading Bearing Walls using Formwork of Aluminium Panels. The system is Reliable, Simple, Highly Adaptable and Cost Effective

Aluminium Formwork Panel System, Aluminium Formwork System allows the Walls and Slabs to be Poured in the same operation for RCC Load Bearing or RCC Frames Multi-Stories Buildings. These increase Efficiency and also Produced an Extraordinarily Strong Structure with Excellent Concrete Finish.

NOTABLE PROJECTS

■ **Building Works At Clementi Neighbourhood 2 Contact 3
(Total 1,179 Dwelling Units)**

Country : Singapore

Year Awarded : 2018

Types of Construction Materials : Supply And Delivery Of
Aluminium System Formwork

Due to its Consistency, it allows Plumbing and Electrical Fittings to be Prefabricated and Achieve Exact Fit when Assembled. Above all this, the Formwork System can be Erected without the Need of Cranes.

MANUFACTURER

■ Mixed-Development

State : Kuala Lumpur

Year Awarded : 2017

Types of Construction Materials :

Supply and Install Aluminium Formwork System

■ Mixed-Development

State : Johor

Year Awarded : 2018

Types of Construction Materials : Subcontract

Work-Supply The Aluminium Formwork System

■ Mixed-Development

State : Sabah

Year Awarded : 2018

Types of Construction Materials : Supply Labour on Installation and Dismantle of Aluminium Formwork System
